

KS3- Year 9 Long Term Mapping

Expressive Arts - Art

Subject Intent/ Aims:

Students Continue to build their knowledge of the formal elements and artists as they continue their journey in year 9. Themes covered will reinforce skills and knowledge taught in year 7 and in year 8 preparing students for their GCSE's in art.

Artist research is an important area within art, demonstrating student's critical understanding of artists and the history of art that link to the given theme. Current artists such as Sarah Graham, Banksy and Barry Flanagan are some of the artists students are encouraged to research and investigate. Along with more traditional artists such as Paul Cézanne.

Students will be encouraged to use a range of media, providing students with the opportunity to produce creative works when recording their ideas working towards their final pieces.

Students' knowledge and understanding will be revisited at the start of each lesson during the RRR questioning. **Retrieve, Revisit and Recall.** To ensure knowledge 'sticks.'

National curriculum aims are followed to support skill building during the year 8 course. Aims to ensure that all pupils:

- produce creative work, exploring their ideas and recording their experiences
- become proficient in drawing, painting, sculpture and other art, craft and design techniques
- evaluate and analyse creative works using the language of art, craft and design
- know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms.
