

# Pupil premium strategy statement –

St Philip Howard Catholic Voluntary Academy

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

## School overview

| Detail                                                                                                                                                                           | Data                    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| Number of pupils in school                                                                                                                                                       | 588                     |
| Proportion (%) of pupil premium eligible pupils                                                                                                                                  | 31% (180)               |

## Part A: Pupil premium strategy plan

### Statement of intent

Our aim is to ensure that all children are provided with the best quality of education so that they can achieve their full potential. We focus on the whole child ensuring each individual's academic, cultural and social development, ensuring that all pupils have the opportunity to use their, 'heads, hearts and hands' to become active learners who are engaged, reflective and able to apply transferable skills in all aspects of their lives.

During the three-year strategy we will focus on the key challenges that may prevent our pupils from being successful learners. The approach will be responsive to both common challenges and our pupils' individual needs.

At St Philip Howard, we will adopt a whole school approach in which all staff have the highest expectations of what all students can achieve.

We will offer our students high-quality teaching; targeted academic support and tackle non-academic barriers to academic success by personalising our approach to:

- best engage with our students and parents so that students **want to attend and learn** in school.
- provide students with a **broad and balanced curriculum that supports all** to develop cross-curricular learning.
- support students to **develop lifelong learning skills** that will aid them in their future development.
- develop all students' **personal, social and cultural development** through **varied extra-curricular opportunities** and character development.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number | Detail of challenge                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1                | <b>Attendance and persistent absence is greater</b> with our attendance gap for Pupil Premium pupils at 10.6% difference between non-Pupil Premium Students and 26.3% 'persistent absenteeism' (YTD).                                                                                                                                                                                                                                          |
| 2                | <b>Wellbeing and social and emotional concerns are far greater</b> for many of our Pupil Premium students compared to non- Pupil Premium. This is particularly apparent since the pandemic, resulting in a much higher safeguarding need for Pupil Premium students.                                                                                                                                                                           |
| 3                | <b>Lower levels of literacy: vocabulary and reading development.</b><br>Our assessments at KS3 show that our Pupil Premium students are more likely to have lower levels of vocabulary (retention and application of tier 2 and tier 3 vocabulary) and reading comprehension (lower reading ages and reading speed) which may be preventing them from accessing different parts of the curriculum.                                             |
| 4                | <b>Lower levels of numeracy: foundational mathematical concepts</b><br>Our assessments at KS3 show that our Pupil Premium students are more likely to have gaps in foundational numeracy components and mathematical reasoning which slows progress and attainment of grades 5+ at GCSE and makes it more challenging to make cross-curricular links.                                                                                          |
| 5                | <b>Unpreparedness for learning.</b><br>Internal evaluations have identified that some of our Pupil Premium students arrive late to school; do not have the necessary uniform, equipment, space or healthy habits to aid learning.                                                                                                                                                                                                              |
| 6                | <b>Lower cultural capital.</b><br>Internal evaluations have identified that some disadvantaged pupils have had fewer cultural opportunities and, therefore, have less social and cultural awareness to be able to make cross-curricular links in their learning.<br><br>Some students may have less knowledge of the wider world, meaning that they may have less awareness of the possible career choices available and how to achieve these. |

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome                                                                                             | Success criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. To improve attendance for all pupils, particularly our disadvantaged pupils.                              | <p>Sustained high attendance by 2026/27 demonstrated by:</p> <ul style="list-style-type: none"> <li>Reducing the attendance gap between disadvantaged pupils and their non-disadvantaged peers by at least 5%.</li> <li>Ensuring the percentage of all pupils who are persistently absent is below national average (19%) and the gap between disadvantaged pupils and their peers is reduced.</li> </ul>                                                                                                                                                                         |
| 2. To achieve and sustain improved wellbeing for all pupils, including those who are disadvantaged.          | <p>Sustained high levels of wellbeing by 2026/27 demonstrated through:</p> <ul style="list-style-type: none"> <li>qualitative data from student and parent voice.</li> <li>internal reporting which shows impact of pastoral care and family support.</li> <li>a significant increase in participation in enrichment activities, particularly among disadvantaged pupils.</li> </ul>                                                                                                                                                                                              |
| 3. Improved reading comprehension, as well as vocabulary retention.                                          | <p>Observations, diagnostic analysis and student attainment will show that:</p> <ul style="list-style-type: none"> <li>AR and GL progress is in line or above expected progress in relation to starting points.</li> <li>Vocabulary quizzing shows improved retention over time.</li> <li>Students will be able to use the vocabulary in a variety of contexts, both within subjects and across different subject areas as demonstrated in</li> <li>Students will be able to read fluently across all subjects, which will enable them to fully access the curriculum.</li> </ul> |
| 4. Improved foundational numeracy skills which aids greater progress in Maths and supports wider curriculum. | <ul style="list-style-type: none"> <li>Foundational numeracy skills have improved as demonstrated in KS3 assessments and internal tracking data.</li> <li>KS4 performance measures in 2026/27 demonstrate that attainment for disadvantaged students is in line with national attainment and the gap is reduced in line with nationals (3.92)</li> <li>Percentage of students achieving a grade 5 in Maths and EM is in line with national average for all (45.9% EM)/ PP students.</li> </ul>                                                                                    |

|                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>5. Students are fully equipped and have developed healthy minds and habits for learning.</p>                                                                                                                                                                           | <ul style="list-style-type: none"> <li>• Improved punctuality to school.</li> <li>• Increase in Homework completion.</li> <li>• Success to be measured against progress in the PSHE Curriculum.</li> <li>• Disadvantaged and vulnerable children proportionately represented in credits, awards and achievements.</li> <li>• Reduction in debits and behaviour sanctions.</li> <li>• Boxall profiles or similar to show progress on an individual level.</li> <li>• All students will develop a greater awareness of their learning and their personal strengths and weaknesses and be able to apply transferable learning skills to support them across the curriculum.</li> </ul>                                                    |
| <p>6. Students gain strategies to keep themselves safe, boost self-esteem and develop greater social awareness. These improved skills support the child's ability to manage their cognitive load and make links within their mental schema to fulfil their potential.</p> | <ul style="list-style-type: none"> <li>• All are immersed in a rich curriculum with adaptations which addresses gaps in prior learning as evaluated by subject leads.</li> <li>• Explicit teaching of self-regulation strategies increases students' motivation and independence as shown in progress data over time.</li> <li>• Extra-curricular opportunities enrich students' cultural capital as evidenced in student voice.</li> <li>• Students can articulate the impact of RSHE and PSHE experiences and how this enhanced their personal development.</li> <li>• Career guidance and training supports students to aim higher as evidenced in student voice and attitude to learning and response to feedback data.</li> </ul> |

## Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.

### Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £2,957

| Activity                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Evidence that supports this approach                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Challenge number(s) addressed |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| <p>Quality first teaching focusing support for pupil premium children through scaffolding, explicit teaching and effective feedback.</p> <ul style="list-style-type: none"> <li>• <i>CPD on effective scaffolding; explicit and adaptive teaching and effective feedback.</i></li> <li>• <i>Time for Staff to Mentor or team teach with ITTs or ECTs.</i></li> <li>• <i>Release time to visit other schools for observation and training.</i></li> </ul> | <p>Following monitoring, teaching structures have changed to encourage more whole class teaching as EEF evidence suggests that streaming can have a less than positive impact on learning for those who are less able. New scheme for Maths also requires teacher input and whole class interactions.</p> <p>Feedback is listed in the EEF as one of the most effective strategies to improve pupils learning.</p> <p>Focus on the explicit instruction and scaffolding from the EEF's five a day approach to supporting children in their learning. Although this was designed for children with SEND needs the principles are effective in supporting children in their learning</p> <p>Dylan William states- A bad curriculum well taught is invariably a better experience for students than a good curriculum badly taught: pedagogy trumps curriculum.</p> <p>Therefore, ensuring clear and effective pedagogy is essential in ensuring disadvantaged pupils are supported in closing learning gaps.</p> | 3, 4, 6                       |
| <p>Improving literacy in all subject areas in line with recommendations in the EEF <a href="#">Improving Literacy in Secondary Schools</a> guidance.</p> <ul style="list-style-type: none"> <li>• <i>Professional development and instructional coaching focused on disciplinary literacy in each subject area.</i></li> </ul>                                                                                                                           | <p>Acquiring disciplinary literacy is key for students as they learn new, more complex concepts in each subject:<br/><a href="#">Improving Literacy in Secondary Schools</a></p> <p>Reading comprehension, vocabulary and other literacy skills are heavily linked with attainment in all subjects:<br/><a href="#">word-gap (Oxford University Press)</a></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 3                             |

**Total budgeted cost: £42,957**

## Part B: Review of the previous academic year

### Outcomes for disadvantaged pupils

We have analysed the performance of our school's disadvantaged pupils during the 2024/25 academic year using key stage 4 performance data and our own internal assessments.

For 2025, the Attainment 8 it was 3.21 improved from 2.8 in 2024. Progress data wasn't measured due to impact of Pandemic.

We have, compared our results to national figures to help gauge the performance of our disadvantaged pupils (although these should be considered with caution given the caveats stated above). The national Attainment 8 score for disadvantaged pupils in 2024/25 was 4.7.

Key stage 4 data and our internal assessments suggest that the progress of the school's disadvantaged pupils in 2024/25 in line with expectations.

We have managed to close the gap between the Progress 8 and Attainment 8 scores of our disadvantaged and non-disadvantaged pupils since the start of the pandemic. The Progress 8 score of our non-disadvantaged pupils was 0.36 compared to -0.4 for our disadvantaged students, and who's Attainment 8 score was 49. Our analysis suggests that the reason for this is primarily the ongoing pursuit of providing equal opportunities for our disadvantaged students and our relentless drive to raise aspiration and achievement for all.

Absence among disadvantaged pupils was 5.4% higher than their peers in 2024/25 We recognise this gap is too large which is why raising the attendance of our disadvantaged pupils is a focus of our current plan and main part of our school improvement plan.

We have reviewed our strategy plan and made minor changes to how we intend to use some of our budget this academic year, as set out in the Activity in This Academic Year section above.

## Externally provided programmes

*Please include the names of any non-DfE programmes that you used your pupil premium to fund in the previous academic year.*

| Programme                           | Provider                    |
|-------------------------------------|-----------------------------|
| Progress tests in Maths and English | GL Assessment               |
| Reading tests                       | GL Assessment/ Star Reading |
| Vocabulary enhancement              | Bedrock/Powerful Words      |

## Service pupil premium funding (optional)

|                                                                                                                                                                               |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>For schools that receive this funding, you may wish to provide the following information: <b>How our service pupil premium allocation was spent last academic year</b></i> |
|                                                                                                                                                                               |
| <b>The impact of that spending on service pupil premium eligible pupils</b>                                                                                                   |
|                                                                                                                                                                               |

## Further information (optional)

*Use this space to provide any further information about your pupil premium strategy. For example, about your strategy planning, implementation and evaluation, or other activity that you are delivering to support disadvantaged pupils that is not dependent on pupil premium funding.*
